

ACCOMMODATION

As Lisbon became a very attractive city, the accommodation for international students has decreased and became more expensive. It is extremely important for Students to start checking accommodation as soon as possible **before the arrival**.

We strongly advise applying directly - and as soon as admitted - to the residences and private housing connections shown below: check the website, have an overview of all available accommodations (including location, specifications, rent and photos).

We strongly discouraged you from checking for a room after arrival, as it will be extremely difficult to find accommodation within the city and there is a risk of not finding it at all!

Specific Needs

Students with specific needs may require additional facilities. These might include modifications to the house and/or other requirements such as the location of the apartment or size of the room.

If you need additional facilities in your living environment, please send an e-mail detailing your requirements to the International Relations Office (iro@iscte-iul.pt).

Finding suitable accommodation may take some time so please notify IRO as early as possible.

Tips

Price range for a room from 350€ to 950€

If your budget is tight, we advise you to share a room

Ask for what is included in the price (It can be all-inclusive monthly rent or monthly rent excluding expenses- with sensible use, 50€ per person should suffice for utilities).

A shared room is typically around 250€ per person.

If the bank account is not Portuguese, and the room is in Lisbon - it is rarely legit!

Ask if there is also bed linen, towels, cleaning service for the common area (monthly / weekly).

Do not make a bank transfer without verifying the identity of the receiver

ISCTE UNIVERSITY RESIDENCE

The Iscte Prof. José Pinto Peixoto University Residence is located off-campus and offers a very limited number of rooms. It meets some of the accommodation needs of its visiting students and teachers.

Interested students can apply directly to the residence. More information is available [here](#).
